

# Activate Microsoft Teams

**Duration:** 3 Days

**Focus Area:** Upgrade, Migration and Deployment

## Overview

Whether you deployed Microsoft Teams from the beginning or are just starting your journey, *Activate Microsoft Teams* is a service designed to help you understand and get the most out of your investment.

## Objectives

**Upskill** and understand the technical framework and management of Microsoft Teams platform in order to stay one step ahead of new features as they are released.

Identify, **discuss and prepare** your organization for Microsoft Teams directly with a field-tested Microsoft subject-matter-expert on Teams and Microsoft 365.

## More than just PowerPoint!

Our Customer Engineers will not only provide the traditional learning experience you have come to expect from Microsoft Services. A set of guided hands-on-activities are available to enforce the concepts learned during the engagement.

## Come Prepared!

Each attendee participating in the hands-on-activities should bring a workstation running at least Windows 7 SP2 with a minimum of PowerShell 5.1.

Windows 10 is highly recommended! MacOS and Linux workstations are not supported at this time.

You will need to have permissions to install software and PowerShell Modules

Have the following ready when the CE arrives:

- Location large enough to hold up to 20 people
- Projector
- Whiteboard

## Agenda

For three full days, this engagement is jam-packed with valuable interactive technical discussion and upskilling you can't get anywhere else. A Microsoft Customer Engineer will skillfully guide you through what you need to know to be successful with your deployment and usage of Microsoft Teams.

**Topics of discussion include:**

**Microsoft Teams Architecture**

**Managing Teams Users and Clients**

**Microsoft Teams Meetings**

**Microsoft Teams Phone Conferencing**

**Microsoft Teams Collaboration**

**Microsoft Teams App Platform**

**Microsoft Teams Guest Access**

**Skype for Business Hybrid and Migration**

**Hands-on-Activities and demonstrations** of Microsoft Teams in action are included throughout the three days of engagement.
